

# Ten Step Plan for Safer Road Infrastructure

## UNRSTF Priority #1: Gap Analysis

<b>Step 1</b>	National Safer Road Infrastructure Workshop
<b>Step 2</b>	Road Infrastructure Management Operational Mapping
<b>Step 3</b>	Review of Current National and State Operational Policies, Standards, Guidelines and Financing Arrangements
<b>Step 4</b>	Develop National Safer Road Infrastructure Strategies and Supporting Action Plans

## UNRSTF Priority #2: National Standards & Training

<b>Step 5</b>	Development of National Road Design Standards in accordance with the UN Global Road Safety Program Targets
<b>Step 6</b>	Development of National Training, Accreditation and Certification Standards and Institutional Capacity

## UNRSTF Priority #3: Infrastructure Safety Management

<b>Step 7</b>	Establish and/or enhance a National Road Assessment Programme
<b>Step 8</b>	Immediate Road Design Assessments and Road Safety Audits that elevate the safety for all road users to a 3-star or better standard in support of UN Target 3
<b>Step 9</b>	Strengthen National Capacity for Infrastructure Road Safety Construction Quality, Data Management, Performance Tracking, Monitoring and Evaluation
<b>Step 10</b>	Establish an effective communications programme that celebrates safer roads

THE GLOBAL GOALS
